

## Technical data PE-LD flat film black

### Product

PE-LD- flat film

Vapor barrier foil

### Charakteristische Eigenschaften

Material

LDPE / LLDPE / LDPE

Flat film with high mechanical strength

Color

black

### Technical properties

Thickness

ca. 150 µm

DIN 53370

Basis weight

ca. 150 g/m<sup>2</sup>

DIN 53365

Water vapor permeability

ca. < 1.0 g/m<sup>2</sup>/d DIN 53122

S<sub>d</sub>-Value

124 (m) DIN 12572

Water absorption capacity

-

### Advantages

Flat film with high mechanical strength

### Storage conditions

Temperature range:

from 15 to 25 °C

Humidity range:

from 40 to 75 % rel. F.

Storage time:

6 months from the date of delivery

Ambient conditions:

protected from direct sunlight

### Verpackung (Rollen)

Roll length

25 m / 10 m

Roll width

200 cm (folded to 100 cm)

Packaging unit

2 x 25 m = 20 Rolls / pallet

2 x 10 m = 40 Rolls / pallet

The product data mentioned are approximate values which may vary within the production.
